About me

Hello! I'm an experienced senior frontend developer with over eight years of experience in web development. My expertise includes deep knowledge of JavaScript, TypeScript, NodeJS, CSS, and HTML, as well as experience with modern frameworks and libraries such as React and Vue.js.

I specialize in creating high-performance, responsive, and cross-browser user interfaces. My approach to development includes using best practices, architectural patterns, and tools to ensure high-quality and scalable code.

My goal is to create user-friendly and modern web applications that provide users with a seamless interaction experience. I actively follow industry trends and constantly improve my skills to stay up-to-date with the latest technologies and best development practices.

In my work, I value teamwork, knowledge sharing, and continuous growth. I'm ready for new challenges and always open to discussing and implementing new ideas and approaches in development.

Key skills

Experience

Senior Frontend Developer Dec 2022 - Present · 2 years 1 month

ShapesXR shapesxr.com

- Developed web application to enable client 3D model uploading and administration-level project permission changes
- Deployed the support portal using Amazon Web Services; enabled monitoring services for internal use
- Created a company website for presenting products to potential clients

Teamlead Frontend Developer Nov 2020 - Nov 2022 · 2 years

Sber Prime sberbank.com/sberprime

- Created new pages and improved existing ones to attract customers
- Designed sales pages, developed a personal account for subscription management, integrated payment services, and more
- As a team lead, I oversaw a team of 5 frontend developers and 2 backend developers, provided training to junior developers, and coordinated with adjacent teams

Middle Frontend Developer Mar 2019 - Nov 2020 · 1 year 9 months

Sber Investments  sberbank.com

- Created calculators to assist investors and clients with account value projections; continues to provide highly accurate results
- Made more than 100 widgets for BackBase, including interactive charts and graphs, and a digital collator that matches users' spending potential with viable investment options

Junior Full Stack Developer Aug 2016 - Mar 2019 · 2 years 8 months

Oberon  oberon-it.ru

- Worked on developing a web application admin panel for service configuration
- Contributed to a library that enables the creation of lightweight web applications where all functionalities are executed on the server, with the front-end serving solely as an information display interface.

Master's degree Sep 2018 - Sep 2020 · 2 years

MTUCI  mtuci.ru

During my Master's program, I studied many advanced IT subjects, with a focus on

- software development technologies
- network architecture
- mobile and web application programming

Bachelor's degree Sep 2014 - Sep 2018 · 4 years

MTUCI  mtuci.ru

During my Bachelor's studies, I focused extensively on mastering the C++ programming language.

Concentrated on:

- software engineering
- information systems architecture
- information security basics
