To Whom It May Concern,

I highly recommend Dmitry Eremichev as a candidate for employment. Dmitry was employed by Shapes R&D as a Senior Software Engineer from February 10, 2023, until December 31, 2024. Prior to that, he worked at Tvorii LLC, St. Petersburg, Russia, starting on December 1, 2022. These two companies were closely affiliated, and most employees transitioned from Tvorii LLC to Shapes R&D in 2022 and beginning of 2023. Dmitry left Shapes R&D due to a significant reduction in business, which necessitated workforce downsizing.

During his tenure, Dmitry demonstrated exceptional expertise in front-end and back-end development. On the front end, he professionally utilized tools and technologies such as JavaScript (ES6+), React, Redux Toolkit, TypeScript, Next.js (including server-side rendering), Three.js, Git, Bitbucket, Jira. On the back end, Dmitry worked with Node.js, Express, and related frameworks and tools.

His responsibilities included:

- Developing dynamic and responsive user interfaces using React, Redux Toolkit, and Three.js for advanced web visualizations.
- Maintaining and improving existing codebases to uphold high standards of quality and performance.
- Designing and implementing server-side rendering (SSR) solutions with Next.js to enhance performance and SEO.
- Developing and maintaining back-end services with Node.js and Express to support front-end applications and APIs.
- Proposing and integrating architectural improvements to enhance system scalability and maintainability.
- Conducting performance optimizations, debugging, and troubleshooting for both front-end and back-end components.
- Researching emerging technologies and approaches to ensure the team delivered cutting-edge solutions.

Dmitry's problem-solving skills and deep understanding of front-end made him an indispensable part of the team. His ability to adapt quickly to new tools and workflows, along with his dedication to writing clean, efficient, and reusable code, ensured the success of projects in dynamic environments.

I am confident that Dmitry would be an invaluable asset to your organization, bringing his expertise, creativity, and professionalism to your team.

If you have any further questions regarding his background or qualifications, please do not hesitate to contact me.

Sincerely,

Viacheslav Nesterov
